Wireless Products

RollerMouse Red

Our premier RollerMouse, the Red combines precision and modern ergonomics for an experience unlike any other.

RollerMouse Red Plus

All the great benefits of the Red but with an extra 2" of palm support making it the mouse of choice for users with L-XL hands.

RollerMouse Free3

With its sleek, tapered palm support, the Free3 is the go to RollerMouse for users in tight spaces. Free3 is also equipped with two extra shortcut keys, ensuring you get the most productivity out of your mouse.

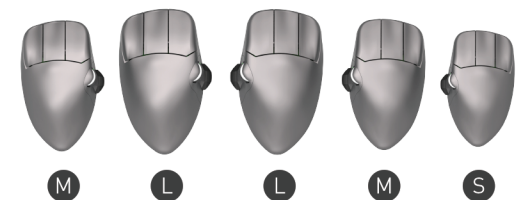

Unimouse

The world's first and only completely customizable mouse. With an articulating hinge and a fully adjustable thumb support, the Unimouse can fit a wide range of hand shapes and sizes, allowing users to find their perfect fit.

Balance Keyboard

The perfect partner for the RollerMouse Red and Free3, the Balance Keyboard ensure you get the most out of your ergonomic workstation.

Left-Handed

Right-Handed

Contour Mouse

Designed with a 17° slope built into the body of the mouse, our Contour Mouse is designed to allow users to work while minimizing strain on the hand and forearm. Available in two left handed sizes and three right handed sizes.
